## STAPLE, STICK or GLUE

There are benefits is using each way of attaching your bunting flags.

1. Stapling; quick simple and allows you to slide each piece where you'd like it to sit once you string it up.

2. Sticky Tape; Sticky tape is great as it's clear and you can still move the bunting flags.

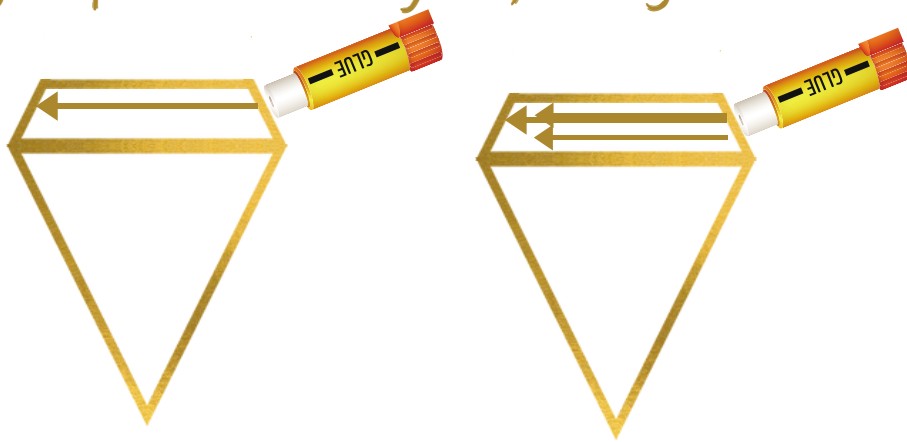

3. Washi tape; it can add a decorative effect to your bunting flag and allows movement.

4. Glue; depending on how you glue will influence how your bunting flags can move.

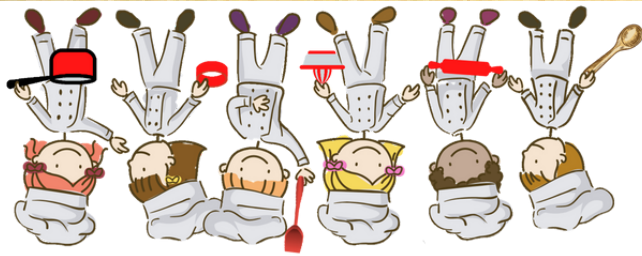

a) 1 strip of glue at the bottom will allow flag to slide.

b) If you glue the entire flap, this will keep each flag in place where you first glue them.
